## COUNTY COUNCIL.

DECEMBER SESSION.

FRIDAY, DEC. 8th, '93.

Minutes of Thursday afternoon read and confirmed.

Council went into committee of the whole on report of Road and Bridge committee.

The clause referring to Mink's bridge was again discussed.

Mr. Derbyshire thought the clause giving \$81.80 to Richmond, for repairs, was illegal and moved that it be struck out. The yeas and nays were taken after much discussion and numerous motions and the motion lost. The adoption of report carried.

Mr. Bryden presented first report on Education and Printing.—Referred back to committee for correction.

On motion the council passed a resolution of condolence to Mr. Ham, his wife having died.

On motion it was ordered that Mr. Davis' paper on construction of roads, read before the council Thursday should be handed to the local papers to publish if they wish.

A motion that John Chetham be paid \$1.50 per day for services as messenger.—Carried.

Mr. Baker presented report of Special committee, to whom was referred the question of forming the county into one High School district. Report read and adopted.

The 2nd report by Committee on Roads and Bridges was presented by Mr. Carscallen recommending that the Newburgh bridge be repaired by the township and that they bring in bill of costs, and that the county pay their share, and committee went into the whole.

Couns. Sills and Carscallen moved that this council pass an order for \$67.35, payable to the Township of North Fredericksburg, that being the amount expended this year on county roads by said township up to June 10th when resolution re abandonment of county roads was passed by this council, and that the Warden issue order for said amount. Referred to Road and Bridges committee.

Council adjourned until 2 p.m.

FRIDAY AFTERNOON.

At 2 o'clock council resumed.  
Reeve Carscallen in the chair, the Warden being ill.

Jas. Shields, account of \$5 for overseeing building of bridge across Salmon river, on boundary line, in township of Sheffield.—Ordered paid.

Warden entered and took the chair.

Mr. Oliver presented 1st report of Finance committee.—Adopted.

Mr. Bryden presented report on Education and Printing. On motion the council went into committee of the whole, Mr. Bryden in the chair.

The report was read clause by clause. S. Gibson's account was referred back to the committee. The clause granting to Flinton model school \$50, for model school purposes, was struck out and the report as amended was adopted.

On motion the Warden and Coun. Carson, Chairman of County Property Committee, were each granted \$25 for services during the year.

The report of committee on Roads and Bridges was read and adopted.

Council adjourned for half an hour, in order to give the committees time to make out reports.

On motion a resolution of condolence to Mrs. Ham was passed expressing the regrets of the council at the demise of her late husband, John D. Ham, esq.

The treasurer was on motion authorized to overdraw the present limit of \$12,000 from the bank, if found necessary before the Jan 31st, 1894, to defray current expenses to the extent of not more than \$15,000.

The Warden was authorized to get legal advice before signing any orders for grants from the county to any municipality for the purpose of aiding in the construction or maintenance of any roads or bridges within the counties of Lennox and Addington.

Council adjourned until 9 o'clock Sat-

## NEWS FROM THE COUNTRY

### DESERONTO

The big mill has closed down for the season. The royal Templars of Temperance recently held their semi-annual election of officers resulting as follows:

J. M. Smith, S. C.; F. C. H. Bell, P. C.; Miss A. Oliver, V. S.; Miss Emma Sills, chap.; Fred Huff, rec. sec.; S. C. Werden, fin. sec.; John Dougherty, treas.; Ralph Godwin, herald; Mrs. Rusk, guard; Fred Cook, sentinel; Miss A. Scott, organist; David Cook, trustee.

The royal Templars of Temperance are holding meetings every Sunday afternoon in the Forester's hall in the Cole block and they are very largely attended. They intend keeping them up until after the vote on the plebiscite in January. It is the opinion here that Deseronto will give a large majority in its favor.

—A Comfort Sometimes.—When health is far gone in Consumption, then sometimes only ease and comfort can be secured from the use of Scott's Emulsion. What is much better is to take this medicine in time to save your health.

### HAWLEY.

Mr. Editor, we would like to give you a few items from this place and help to interest the many readers of the EXPRESS in and around here.

A heavy snow storm raged through here last night but the sleighing is not too good yet.

La grippe has again visited our neighborhood and a large number are stricken down. Mr. and Mrs. Wm. McNeill have been in a dangerous condition, we hope to hear of their speedy recovery.

Master John and Miss Ila Borgard of Adolustown were visiting friends here last week.

A grand entertainment will be given at Bethel church Hawley on the evening of the 25th in benefit of the Sunday School. Let every young man bring his best girl. Santa Claus will be there to speak on behalf of the children.

We are sorry to say that our highly respected school teacher, Miss E. Demorest, is going to leave us and take up her abode in Morven. What is our loss will be Morven's gain.

The farmers are very busy pressing their hay. Prices are low at present.

There is just one thing booming here now and that's the Patrons. Their lodge is increasing every week and, I understand, they intend putting a candidate in the field at the coming election.

—Consumptives, cheer up! You are not going to die, if you will but take Miller's Emulsion of Cod Liver Oil, "the kind that cures" coughs, colds, bronchitis and the first stage of consumption. Every bottle warranted. No oily taste like others. In big bottles, 50c and \$1.00, at druggists.

### YARKER.

Peter Hart's horse ran away, being scared at the cars.

A Christmas tree entertainment will be held here Saturday evening, Dec. 23rd. A feature of the programme will be the singing of hymns.

—Hurry pick the tops, farm-rent changes their time, at election time the tariff made no difference, but now, when they see the change in the U. S. tariff, they say so much the better for us, we will get more now for our barley and other farm produce.

The plebiscite vote seems to take precedence over the township elections, it will likely carry here.

A big shooting match, to last all day, is arranged for here, and Dec. 18th, by the Warner Bros., open to all one.

Michael O'Laughlin has retired from farming. He disposed of his stock, machinery and house here and turned to auction.

C. Gamble is rattling off his cutters, harness and roles now.

Gripe is very prevalent here, hardly a family escaping.

Electron of officers in A. O. U. W. Friday next, a full attendance is required.

Chosen friends meet to elect officers next week.

John Roe is working hard on his public skating rink. He has erected a house on rink for the convenience of skaters.

Many raffles for geese and turkeys are taking place.

Mrs. Dr. Weagant will be accompanied by Mrs. J. H. West to Golton, California, to spend the winter.

The foundry will reopen in February.

Mr. Allan Silver has returned after an absence of four weeks.

Mr. B. Silver is home from the States.

—Catarrh in the Head is undoubtedly a disease of the blood, and as such only a reliable blood purifier can effect a perfect and permanent cure. Hood's Sarsaparilla is the best blood purifier, and it has cured many very severe cases of catarrh. Catarrh oftentimes leads to consumption. Take Hood's Sarsaparilla before it is too late.

### CONWAY

Well, Mr. Editor, Conway is very quiet at present, the young people are all waiting for Christmas.

The Methodist parsonage is almost completed and our minister, Rev. W. B. Tucker, will enjoy his Christmas dinner in it.

Mrs. Joseph Keller accompanied by her sister, Miss Maude Philippin, of Turle Mountain, Man., have returned home to attend their mother with chil-

officers by whom, respectively the Municipal electons for 1894 in the said Town of Napanee shall be held.

In West Ward, polling divisions numbers one and two in the same places where, and before the same deputy returning officers by whom, respectively the Municipal elections for 1894 in the said Town of Napanee shall be held.

11. On the twenty-sixth day of December next the Mayor will attend at the Council Chamber in the said Town of Napanee at the hour of ten o'clock in the forenoon for the purpose of appointing persons to attend at the several polling places and at the final summing of the votes by the clerk respectively on behalf of the persons interested in and promoting, or opposing, the passage of this By-law respectively.

12. On Tuesday, the second day of January next, the Clerk of the Council of the said Municipality will attend at the Town Hall in the said Town of Napanee, at noon and sum up the number of votes given for and against this By-law.

Read a first time and considered the 6th day of November, A.D. 1893.

Read a second time on 6th day of Nov., 1893.

Take notice that the above is a true copy of a proposed By law which has been taken into consideration and which will be finally passed by the Council of the said Municipality in the event of the assent of the electors being obtained thereto after one month from the first publication thereof in the NAPANEE EXPRESS the date of which first publication was Friday the first day of December, 1893, and that at the hour, day and places therein fixed for taking the votes of the Electors of the said municipality thereon the polls will be held.

JAMES E. HERRING,  
Town Clerk.

Dated this 30th day of Nov., 1893.

#### SATURDAY MORNING.

Minutes of yesterday read and confirmed.

The second report of Education and Printing committee was presented and read.

Council went into committee of the whole, Mr. Lane in the chair.

The report was read. The first clause recommending that the requisition of the Newburgh high school be granted was amended and all the words after that, were struck out and the following substituted: the treasurer be authorized to pay the treasurer of the Newburgh high school the amount of all legal claims that the said school has on the council and that in such manner as the law provides. The rest of the report was adopted.

The clerk was authorized to procure a certified copy from the head master of the Newburgh high school as to the number of pupils enrolled as high school scholars and present it at the January session, 1894.

The warden was authorized to sign an order to have John Nolan, a vagrant now confined in the Napanee jail, sent to the Kingston hospital.

The opinion W. G. Wilson re the legality of giving grants for the construction and maintenance of roads in the united counties was read.

The warden left the chair and Mr. Derbyshire took the same.

On motion the members of the council expressed pleasure in presenting to H. A. Baker, our respected warden, their sincere thanks for the able, courteous, and impartial manner in which he has discharged the duties of presiding officer of the council.

The warden resumed the chair, thanking the councillors for their hearty vote of thanks in suitable terms.

On motion the opinion of Mr. Wilson was ordered to be filed.

A motion to authorize the Roads and Bridges committee to rebuild Floating Bay Bridge, which is unfit for public travel was deferred over to the January session.

The minutes of to day were read and approved.

Council adjourned (sine die).

place. We understand that we are going to have a Christmas wedding with a large number of dinner.

We are sorry this week to have to chronicle the sad and sudden death of Miss Lola B. Switzer, Esq., which took place on the 4th of December, at the early age of 13 years and 5 months. She was a very bright and intelligent young girl and loved by all. The funeral service was conducted by the Rev. W. B. Tucker, the body being placed in the Adolphus town vault. Her end was peaceful.

The family were shipped from the dock the first stage of navigation.

Another sad death this week which we are sorry to have to announce is that of Mr. Thadford Ham, which took place on Thursday. The deceased had been suffering for the past few weeks. The best medical aid was procured but to no avail. She leaves a husband and two sons to mourn her loss.

Mr. H. P. Claringbold has returned from the far west and paid a flying visit through Conway.

Mr. Richard Bristow has been suffering with a grippe. He is in a dangerous condition for a short time, but said to be improving.

Mr. Will Leonard, of Belleville, is visiting his brother-in-law, Mr. Wm. McKeever.

Mr. Editor, I will close for this time as it is getting late and it is time a little school girl should have her school books and her spicy paper news I will bid you good-bye.

#### CHAMBERS.

There having been no correspondence from here for some time and as Christmas is drawing near, and with it the usual lively time, I thought I would send a little of the news.

The attendance at the school is quite large.

We are having quite a spell of cold weather.

Our Sabbath school, having been fairly patronized by the parents and children, it has been decided to hold Christmas services in Fredericksburg town hall. Santa promised to call Fredericksburg town hall, twenty-first, at ten to seven, and he'll then remain till eleven. We can promise all who come loads of candy lots of fun. Music by the Lutheran choir, music all you could desire. Readings saluted down with fun, songs with sweetness overture, dialogues and recitations, speeches—then you get your rations. Come along and bring ten cents, pay old Santa for expense—costs a lot to come so far—Santa comes from Jupiter. Come and bring the rest jolly, come and bring your sweetheart Molly.

Miss Louise Mallett is visiting her friend Miss Edna Cleo.

Mr. William Chambers has fixed the town hall in fine style.

### LETTERS TO THE EDITOR.

#### WHAT DOES HE WANT?

(From the Toronto World.)

At the farmers' meeting at Belleville last week a Mr. D. W. Allison, described as an ex-M.P., queried the controllers as to the duty on binders. Quoth he, "When a binder is cheaper in Canada than in the United States, I cannot see why you keep up the duty."

This remark of the ex-M.P. is representative of a vast stupidity that is now riding triumphant over the length and breadth of the land. The people are striking out in all directions. They are hitting on the right side and on the left. They strike whatever comes in reach of them. They are in an intensely belligerent mood. But while the electors are dealing blows it does not look as if they knew at whom they were aiming. Look, for instance, at this general Allison. The tariff is his befit now. He says the tariff knocked him into a cocked hat. Why? The price of binders is lower in Canada than in the United States, therefore, says Mr. Allison, reduce the iniquitous tariff. In fact, says he, you don't require a tariff at all in a case of this kind. The tariff on binders is hitting Mr. Allison very severely. He can't stand the strain longer. He wants relief. The duty must come off. The Canadian binder being lower than the American binder, Mr. Allison says, makes the latter admitted into this country. He wants the American prices introduced into Canada. He desires, in fact, to pay more for his binder than he has to today. That's the logic of Mr. Allison's outcry against the tariff. The same kind of absurd logic is dominating discussions all over the country. There is a wave of knownnothingism abroad. The people are our running and they are determined to bag game of some kind. What kind the game may be—crown or partridge—it matters little. They are satisfied if they only wing prey of some kind. The patrons of industry are just now riding high on their hobby-horses advancing upon us, and what it is that the patrons really want we cannot speak for them in the inner shrine can hardly tell you. The only certifying thing that can be said of them is that they have a terribly deep seated desire to kick someone. They used their leg rather vigorously on Sir Oliver Mowat last Saturday. Beyond their desire to hit the Grit Government in Ontario it is somewhat of a conundrum to decide exactly what it is the Patrons are driving at. For the Allison species of logic the Globe is principally responsible. Although it has been proved that agricultural implements are sold as cheaply or even cheaper in Canada than in foreign countries, yet the Globe has raised a great clamor about binders on this charge of fraud. Hundreds of Allisons in the country are echoing the Globe's clamor. But their outcry has just as much reason in it as the brilliant argumentation of the particular Allison who distinguished himself before the controllers last week.

#### MR. ALLISON'S REPLY.

MR. EDITOR.—I send you an article that appeared in the editorial column of the Toronto World, of Tuesday, 5th inst., and if not interfering with space, will kindly ask you to give it publicity in full. As I am the stupid character referred to in said article, would also ask the privilege of occupying a small space in your valuable paper for the purpose of defending myself against the attack made upon me by some writer, who would be better qualified to dig post-holes, than writing editorials, that is, if some intelligent man would show him where to dig. Now, Mr. Editor: the writer commences his article by saying, that last week at a farmers' meeting in Belleville, I queried the Controllers as to the duty on binders. Now this statement lacks that element which is essential in an honest article, namely, truth, for I have not been inside the corporation of Belleville for six months, and have not attended a public meeting in that city for years. The writer, however, may not be as great a novice as you would take him to be. He may have had some sinister motive in placing this at Belleville. He attacks me on one question asked, namely, "Why tax binders if they are cheaper in Canada than in the United States?" and from this he proceeds with all the bosh contained in the article. He says, that I want the tariff taken off, that I want the American prices introduced into Canada. Now, if it is a fact, that binders are cheaper in Canada than in the United States, then it is a fact, that, by acting upon the universally acknowledged principle that has always governed commerce, viz., to buy in the cheapest and sell in the dearest market, it would place beyond a doubt the impossibility of Americans making a market of Canada for their binders. There is not a man, or set of men, in any country that would be foolish enough to leave a home market, and go to a foreign market to sell their goods for a less price than they could get at home. The idea is quite nonsensical. Then, there is another consideration in connection with this case. Does protection increase the price of the article protected? If so, then by taking the duty off binders, you reduce the price, and by so doing you make it more impossible for Canada to be a market for the American binder, and you also give the binder to the Canadian farmer at a lower price.

here and across the border does not justify their contention.

In the main the implement of American manufacture is supplied to the American farmer at prices quite as low as those at which the Canadian farmer is supplied. As to the superior excellence of Canadian implements as compared with American there may be much reasonable doubt. In some lines this superior efficiency exists while in other lines it does not, and it is generally well known that the iron and steel entering into the construction of implements, when of Canadian manufacture, is inferior to the iron and steel the output of American furnaces. Touching the article of wool and manufactures of wool the extravagant claim was made that the imposition of duties on woolen goods imported into this country in nowise increase the cost to the consumer of woolen goods of Canadian manufacture.

That the removal of duties on woolen manufactures imported would reduce their cost to the Canadian consumer must be admitted and these competing with Canadian articles of like manufacture would necessarily force a reduction in the selling prices of the latter. Coming to the question of the protection afforded the farmer by the present tariff it may reasonably be asked in what is he protected?

The manufacturing classes are so far privileged that the raw material imported for their use is in nearly every case admitted free of duty while articles for the use of farmers are forced to bear a tax.

There has been an attempt to persuade farmers into believing that the imposition of 30. per lb. duty on imported foreign wools such as are grown in Canada was affording them ample protection.

It does prohibit the importation of such classes, but all wool not so specified is admitted free of duty and comes into competition with the Canadian wool grower.

Wool, not further prepared than washed, to the value of \$1,398,746.00, was admitted free of duty for the fiscal year ending June 30, 1892.

If this is not discrimination in favor of the Canadian woolen manufacturer and against the Canadian farmer it would be difficult to determine what discrimination necessarily means. Fertilizers of every description used by farmers when imported pay a duty of 20 per cent.

The manufacturer's raw material is admitted free of duty: the farmers must submit to a customs levy.

But the farmer has borne with so much patience the unjust burdens heaped upon him that the government believe he will continue to submit to the extortion which has robbed him during a decade and a half.

When the next appeal is made to the country the government may find that a change not gratifying to its wishes has come over the rural sections of the country.

M. LOTT.

had disappeared, and I felt better than I had in four years. I know that it was Pink Pills that brought about the change, because I was taking nothing else. I have taken in all seven boxes, and I feel as good now as I did at 40 years of age."

Capt. James McKay, Tiverton, N.S., says:—"I had a gripe about three years ago and that tied me up pretty well. I wasn't fit to take charge of a ship, so sailed south as far as Milk River, Jamaica, as nurse for an invalid gentleman. The weather was simply melting, and I used to lie on the deck at night, and in my weakened condition got some sort of fever. When I reached home I was completely used up and continued to get worse until I could hardly move about. At times my limbs would become numb with a tingling sensation as though a thousand needles were being stuck into me. Then my eyesight began to fail. It was difficult for me to distinguish persons at a distance. My face became swollen and drawn, and my eyes almost closed. The doctors could do nothing for me. I suffered terribly, was only a burden to my friends and actually longed for death, which all thought was in store for me. At this time the statement of a man down in Cape Breton came to my notice. He attributed his cure to Dr. Williams' Pink Pills, and I thought there might be a chance for me. I began the use of Dr. Williams' Pink Pills and soon found that they were helping me, and their continued use put me on my feet again, and I went to work after months of enforced idleness, to the great astonishment of my acquaintances, who never expected to see me around again. I feel it my duty to advise the use of Pink Pills by people who are run down or suffer from the effects of any chronic ailment. They saved my life, and you may be sure I am grateful."

John W. Booth, Newcombe Mills, Ont., says:—"Words cannot express the gratitude I feel for the great good I have received from the use of your Pink Pills. I had my full share of la grippe and it left me in a weak and debilitated condition. My nerves were unstrung and I was unable to hold anything, such as a saucer of tea in my hands without spilling it. I had terrible pains in my head and stomach, and although I consulted a good physician I derived no benefit. I made up my mind to try your Dr. William's Pink Pills, and now I look upon the decision as an inspiration, so great is the benefit I have derived from the use of this marvellous remedy. My pains have vanished, my nerves are strengthened, and I am feeling better than I have before for years.

Mr. W. A. Marshall, principal of the Clementsport, N. S., Academy, says:—"I had a bad attack of la grippe which left me weak, nervous and badly used up. I suffered almost continually with terrible headaches, backache and pains through the body. I tried many remedies without receiving any benefit until I began the use of Dr. Williams' Pink Pills, and the use of seven boxes has made me feel like a new man, as I am now as strong as I was before my sickness. I can heartily recommend them to others so afflicted."

Mr. B. Crouter, Warkworth, Ont., brother of Rev. Darius Crouter, who some years ago represented East Northumberland in the House of Commons, says:—"Two years ago I had an attack of la grippe that nearly cost me my life. My legs and feet were continually cold and cramped, and I could get little or no sleep at night, and you can understand what a burden life was to me. One day I read of a remarkable cure from the use of Dr. Williams' Pink Pills, and I made up my mind to give them a trial. When I began using the Pink Pills

have a duty on all articles for the maintenance of government, I whispered to a gentleman at my side, that many things were taxed from which the government received no benefit. One of the Controllers, hearing the remark, challenged me to point out any one article, that was taxed, that the government did not get the benefit of. I said sugar. He declared that sugar was on the free list. I admitted that No. 14 Dutch standard, and all below that, was on the free list, but that all such sugar as is manufactured in Canada was taxed eight tenths of a cent on every pound, for the benefit of the manufacturer, and not one cent of that went into the treasury of our country. This, the Controllers positively denied and reiterated that all sugar manufactured in Canada was on the free list. I must say that I never was more surprised, and have never been called upon to see more forcibly the precarious condition of our Country. To think that the two great departments through which the revenue of our Country flows, viz.: Customs and Land revenue, should be placed in the hands of two such men, to supervise and control, men, who, either wilfully, or ignorantly, deny the existence of a fact that is apparent to every intelligent man in Canada, who knows anything about the sugar question. Men perambulating the country scattering wrong ideas upon so important a question as that of the Country's finances, be it the result of ignorance or a wilful design to delude the public, are unworthy the confidence reposed in them. The effect must tend to disgrace Canada, and may be a serious damage to her financial credit.

D. W. ALLISON.  
Adolphustown, Dec. 11th, 1893

### THE LATE TARIFF ENQUIRY.

No more transparent fraud than the so-called tariff enquiry which Commissioners Wood and Wallace have been holding throughout this Province has been foisted on the agricultural sections of the people in any former missionary work that N. P. advocates have attempted.

The partisan character of the examination of witnesses, and the actual perversion of facts by these exponents of high and unfairly distributed customs taxation, is sufficient to call down condemnation of the commissioner's mission from every honest and self-respecting farmer whose knowledge of economic questions is entitled to respect.

A wide and exhaustive examination of the tariff and its effects on the agricultural class would have been a laudable project and one calculated to inspire farmers with confidence in the honesty and good intentions of the government. But a fraud so superficial as that which the two commissioners have been playing can but be met by farmers with derision and in the end prove barren in good results.

One listening to and observing the manner of examination of witnesses called would of necessity have been forced to believe that the commissioners were endeavoring merely to play upon the credulity of farmers and blind them with the same old fleece of wool that has done such long and efficient service for designing politicians.

If the commissioners were sincere in their professions why did they resort to such wholesale misrepresentation of facts? In dealing with the sugar question Clarke Wallace deliberately stated that granulated sugars were  $\frac{1}{2}$  cent lower in Montreal than in New York.

A reference to the quotations for grocers during the past week shows the falsity of his statement, granulated sugar in Montreal ranging from 4½ cents to 4½ cents and in New York ranging from 4½ c. to 4½ c. prices being about  $\frac{1}{2}$  cent lower in New York than in Montreal.

The same range of difference has prevailed generally during the six months last past.

Commissioner Wallace used his statement to prove that the imposition of duties on articles imported into this country where such articles were manufactured here, did not produce a corresponding increase in the cost to the consumers.

The rate of duty imposed by the United States on sugar above, No. 16 Dutch standard, is 5½ c., while the Canadian rate on all grades above, No. 14 Dutch standard, is fixed at 8½ c.

In order to keep American sugars out of the Canadian markets our refiners could hardly force consumers to pay prices covering the full  $\frac{1}{2}$  c., but  $\frac{1}{2}$  c. is covered, and the fact emphasises the absurdity of Mr. Wallace's assumption. In dealing with agricultural implements the commissioners labored to prove the cheapness and superiority of implements of Canadian manufacture as compared with those of American construction. The actual range of prices

## A SCOURGE MORE TO BE DREADED THAN CHOLERA.

*Medical Science Powerless to Prevent its Spread—It is Again Sweeping Over Canada with Great Severity—How its Evil Effects Can Best be Counteracted—Only Prompt Measures Can Ensure Safety.*

It is stated on high medical authority that an epidemic of la grippe is more to be feared than an outbreak of cholera. The latter disease can be controlled, and where sanitary precautions are observed the danger can be reduced to the minimum. But not so with la grippe. Medical science has not yet fathomed its mysteries, and is powerless to prevent its spread. Three years ago an epidemic of la grippe swept over this country, leaving death and shattered constitutions in its wake and now once more it has appeared in epidemic form; not so severe, perhaps, as on the former occasion, but with sufficient violence to cause grave alarm, and to warn the prudent to take prompt measures to resist its incursions.

When, a few months ago, it was announced that cholera had broken out in Grimsby, one of England's important seaports, it was feared that it would reach this continent, yet this once dreaded scourge was checked and exterminated with a loss of not more than half a dozen lives. That la grippe is more to be dreaded than cholera is shown by the fact that in London last week upwards of an hundred deaths were due to this trouble and medical science is powerless to prevent its spread, and can do nothing more than relieve those stricken with the disease.

At the present moment thousands of Canadians are suffering from la grippe and the misery it is causing would be difficult to estimate. Even when the immediate symptoms of the disease disappear it too frequently leaves even the most robust constitution shattered. The after effects of la grippe are perhaps more dangerous than the disease itself, and assume many forms, such as extreme nervousness, distressing headaches, pains in the back, loss of appetite, depression of spirits, shortness of breath on slight exertion, swelling of the limbs, an indisposition to exertion, a feeling of constant tiredness, partial paralysis and many other distressing symptoms.

In removing the after effects of la grippe, or for fortifying the system to withstand its shock, no remedy has met with as great success as Dr. Williams' Pink Pills. They rebuild the blood, restore shattered nerves, and place the sufferer in a condition of sound health. In proof of these statements we reproduce a few letters speaking in the strongest and most positive terms as to the value of Dr. Williams' Pink Pills in cases of la grippe or influenza.

Mr. George Rose, Rednersville, Ont., says: "I am well to-day and do not hesitate giving Dr. Williams' Pink Pills the credit of saving my life. I had three attacks of la grippe and was so reduced in flesh and strength I could hardly stand alone. I had no appetite. I could not sleep because my legs and feet became badly swollen and cramped. The pain was at times so violent that I could not refrain from screaming, and I would tumble about in bed and long for day to come. If I attempted to get up and walk I was apt to fall from dizziness. I took medicine from the doctor, but it did not help me, and I was so discouraged I did not think I could live more than a few months, when one day I read in the paper of the cure of a man whose symptoms were like mine. I sent for a box of Pink Pills, and by the time it was gone there was improvement. I continued the use of the pills, found that I could now get a good night's sleep, and the cramps and pains which had formerly made my life miserable,

had disappeared; the cramps left me, I felt as if new blood were coursing through my veins, and I can now go to bed and sleep soundly all night. When I get up in the morning instead of feeling tired and depressed, I feel thoroughly refreshed, and all this wonderful change is due to Dr. Williams' Pink Pills. I believe Pink Pills have no equal for building up the blood, and I strongly recommend them to all sufferers, or to any who wish to fortify the system against disease.

Scores of other equally strong recommendations might be quoted, but the above will suffice to show the efficacy of Dr. Williams' Pink Pills in removing all the evil effects of la grippe or influenza, and those who have in any degree suffered from this dangerous malady should lose no time in fortifying the system by the judicious use of Pink Pills. They are the only remedy that strike at the root of the trouble and thoroughly eradicate its bad effects. Ask for Dr. Williams' Pink Pills and do not be persuaded to try something else. DISPERSED AFTER A TUSSLE BY  
LONDON POLICE.

**Storekeepers Close Their Shops, Fearing the Mob Might Loot Them — Kier Hardie Addresses the Men, Who March From Tower Hill to Hyde Park.**

LONDON, Dec. 12.—Thousands of unemployed workmen of London met at Tower Hill and listened to addresses made by James Kier Hardie, a Socialist member of Parliament; Frank Smith, and others.

Mr. Hardie said he intended to move the adjournment of the House of Commons today in order to call the attention of Parliament to the condition of the unemployed. Upon the conclusion of the speech-making the crowd marched to Hyde Park.

A number of red flags were displayed. Several speeches were made in Hyde Park, after which the procession was re-formed and started on the way back to Tower Hill.

As the men marched through Oxford-street the police captured the most offensive banner that was being carried in the lines. The men were allowed to march through Cheapside, but subsequently when they were ordered to disperse by the police they refused to do so.

The police charged the crowd and after a slight resistance succeeded in dispersing it. Traffic was stopped for a short time. Some of the shop-keepers in the vicinity of the disturbance feared that the mob might loot their places of business, and as soon as the disorder began shutters were hastily put up, doors locked, and business suspended.

#### HARDIE'S MOTION DEFEATED.

**Parliament Declines to Adjourn to Discuss the Question of the Unemployed.**

LONDON, Dec. 12.—In the House of Commons the Right Hon. Lord George Hamilton, Conservative, formerly First Lord of the Admiralty stated that he would shortly move the adoption of a resolution calling upon the Government to inform the House as to its intentions in regard to increasing the strength of the navy.

Mr. James Kier Hardy, Socialist member of the south division of Westham, moved the House adjourned. The motion was made for the purpose of calling attention of Parliament to the condition of the unemployed.

Mr. Hardie said that acute distress was prevailing in the entire country. A large number of cases of suicide and starvation had been reported. Pauperism has increased, especially in London. It was necessary, he declared, that the local authorities should furnish employment for the poor.

Mr. John MacDonald, member for Tower Hamlets, supported Mr. Hardie. Mr. Hardie's motion was lost by a vote of 175 to 33.

#### GAUNT WANT IN CHICAGO.

**Eleven Hundred Apply for Shelter In One Night.**

CHICAGO, Dec. 12.—By actual count 1119 men sought shelter in the City Hall last night, and as many more were stowed away on stone floors last night. Joseph Jefferson and Stuart Robson are arranging to give a joint performance for the benefit of the unfortunate.

The hundreds of men, as they lay on the cold tiled floors or sought for places near the steam heaters, were questioned by Prof. Hourwich of the University of Chicago and his class in statistics.

W. P. Rend of the Citizens' Committee said that such a calamity had never visited Chicago before. The city's elevators are bursting with supplies, and yet people are starving for the want of food. The sentiment of the meeting seemed strong in favor of getting the city authorities to provide work for as many of the unemployed as possible.

#### 6000 Idle in Amsterdam.

There are more than 6000 idle people in Amsterdam, add out of 145 sets of knitting machinery 125 are idle. The Overseer of the Poor is contributing \$2 a week to nearly 400 families. Thus far this year it has cost the city nearly \$10,000 for the maintenance of the poor.

#### BROKE HIS NECK.

**Falling From a Car Causes Instant Death of a Brakeman.**

DRUMBO, Nov. 29.—At the C.P.R. depot yesterday Thomas Brock, who resides in London, lost his life. A west-bound freight was throwing off a car on the side, when Brock slipped from the top of the car, falling to the track, breaking his neck, causing instant death. The only mark that disfigured the face was a cut of about two inches on the side of the chin.

The most grievous offence is alleged to have occurred a week ago last Sunday, when Pastor Wright declined to administer the Lord's sacrament to the congregation. From the pulpit he announced that he had not received his salary for several weeks, and he would neither administer the sacrament nor deliver the sermon which had kept him up all night preparing. It is alleged that he also said that he didn't think the congregation would keep a hog penned up for four months without feeding him.

#### A WITNESS MISSING.

**The Trial of the Montreal Dynamitards Postponed.**

MONTREAL, Nov. 29.—The three young French-Canadians, Mercier, Demontigny and Pelland, charged with attempting to blow up Nelson monument in this city with dynamite, came up in the Police Court this afternoon.

The accused were accompanied by Hon. Mr. Mercier and other of the counsel. The prisoners entered a formal plea of not guilty, and on the application of Mr. Mercier, who appeared for his son. A postponement was granted until Saturday next at 11 o'clock.

It is now rumored that one of the principal witnesses against the accused has left the city and an effort will probably be made to drag the case on until public interest in it has disappeared.

#### JUST SIMPLY STOP BREATHING.

**That is Said to be a Sure Way to Avoid Colds.**

It is a fact not generally known that if a person holds his breath wasps and bees may be handled with impunity. The skin practically becomes a coat of mail against which the insects vainly drive their stings. The moment a particle of air escapes from the lungs the stings will penetrate. In explanation of this curious fact a well-known physician advances the theory that holding the breath partially closes the pores of the skin, and thus leaves no opening for attack. This interesting statement explains and enhances the value of a practice I have followed for the prevention of colds. For many years my occupation took me to crowded political and labor meetings, generally held in rooms destitute of any means of ventilation. The heat was intense, the air fetid and poisonous. I have left such meetings bathed in perspiration and plunged into the chill air of a winter's night, thereby running the risk of catching the severest cold. Yet, strange to say, I enjoyed a singular immunity from such aggravating ailments. At the first touch of cold air I took a deep inspiration, and then held my breath for half a minute, in the meantime walking as fast as I could. During that half minute the pores of the skin were closed against the chilling atmosphere, and by the time the lungs called for reinvigoration the body had considerably cooled and the risk of a chill was over. I recommend this practice to public speakers, vocalists, entertainers, and those who are obliged to frequent unduly heated rooms. In my own case the practice never failed, and although I fully believe in its value I never understood the reason of it until a learned scientist came forward with the remarkable theory that while holding the breath the skin could be maintained impenetrable to the sting of a bee.—Jeaness Miller Monthly.

#### The Late Professor Jowett.

The author of the most famous and most misquoted of all the epigrams upon Professor Jowett has sent to the Westminster Gazette an interesting note upon his lines, "Several versions," he writes, "have appeared lately, and my vanity does not consider them improvements." The lines were written:

First come I, my name is Jowett,  
There's no knowledge but I know it,  
I am master of this college,  
What I don't know—Isn't knowledge.

**The Engraver's Eye.**  
The Idler was talking recently to one of Boston's best wood-engravers, and asked him whether his eye did not suffer from so continually squinting through the magnifying glass. Of course, this is only my individual case."—Boston Globe.

### CHEAPSIDE IS A GREAT "BARGAIN CENTRE"

We add fuel to the excitement this week.

WE PURCHASED THOUSANDS of elegant pure Silk Handkerchiefs **For Ladies**, some are embroidered all around with silk thread, some are plain cream hemstitched, and some with beautifully worked initials, worth from 35 to 60c each, to be cleared at 15c each. Take your choice for 15c. Hundreds have been sold, many people taking a dozen or over at once. Never did 15c buy so much value before.

**THE GENTLEMEN** have not been forgotten. We just bought a clearing lot of men's elegant large fancy SILK HANDKERCHIEFS worth from \$1.25 to \$2.00 each. They are laid out in a box and you get your choice for only 75c each, the handsomest, richest goods you ever saw.

**SANTA CLAUS** is loading up for his Christmas pilgrimage and he finds we are headquarters for everything in the way of holiday presents. The store is full of elegant and appropriate things for gifts, and never could compliments be paid with so little money, and it will be a "pleasant reflection" to remember that the gift you give will give "entire satisfaction" as it is bound to do if purchased at our store. If it is a dress remember the finishing touches, the details belong to the dressmaker, the foundation or style and wear depend upon the goods, and you will not be long deciding upon one of the many good reliable stuffs, now going at the great sale at never-before-heard-of prices.

**WE COULD MAKE** many suggestions, for Christmas is in order first now, and it's wise these hard times to give something lasting, something to last for years. Now Carpets and Rugs come in this category. We have a great variety of both and at very tempting prices during the great sale going on.

We are giving special bargains in Underwear of every sort, everything in these lines for ladies, men and boy's, all sizes at big reductions, equal qualities never sold before at equally low prices. No occasion to shiver in the cold winter blasts when so little money will cover and shield you; then again there is the warm outer garments, not to speak of Furs, of which we have the largest stock in the district. Fur Coats and Mantles cheaper than equal quality can be had for anywhere, because we buy dozens of Fur Garments for every one bought by our competitors. We buy much cheaper and sell as we buy.

*We Thank You* most cordially for your liberal support in the past and solicit a continuance in the days to come, with best wishes for a Merry Christmas and a Happy New Year.

## ANARCHISTS EXEMPT ENGLAND.

No Outrages to be Perpetrated Because of British Hospitality.

PARIS, Dec. 12.—The Libre Parole reports that at a meeting of the International Society of French, Spanish, Italian and German Revolutionists, whose headquarters are in London, it was decided to increase the number of dynamite outrages in Spain, France and Italy. The committee declared that in order to acknowledge the generous hospitality accorded to the Anarchists in Great Britain no reprisals should be made against that country, especially in London.

## THE PARIS ANARCHISTS.

The Police After Them—Vaillant's Mistress  
—A Threat.

PARIS, Dec. 12.—The search of the police in the northern section of Paris will probably result in the expulsion of 30 foreigners from France who are believed to be revolutionaries of Anarchists. Marchal, the husband of the mistress of Vaillant, the bomb thrower, has vanished, and the police can find no trace of him. They have discovered, however, that Madame Marchal was an accomplice of her paramour in his dynamite plan, and she has been placed under arrest. The police learned from papers which they found that the woman was fully aware of Vaillant's plan to throw the bomb in the Chamber of Deputies, and that her seeming surprise when informed of the crime was assumed to throw the authorities off the scent they were following.

M. Guesde, a Socialist member of the Chamber, has received a letter signed "One of the Bourgeoisie," in which the writer says he has condemned Guesde to death. The letter continues: "I will kill you like a dog at the exact moment that suits me. Remember that you are number one on the condemned list."

## Cohen Expelled From Belgium.

BRUSSELS, Dec. 12.—The Dutch Jew Cohen, sub-editor of the Anarchist paper Pere Pienard of Paris, who was expelled from France, yesterday sought refuge in Belgium. Immediately upon his arrival he was waited upon by police officials, who ordered him to quit the country.

## Sympathy of the Netherlands.

THE HAGUE, Dec. 12.—The second Chamber of the States General, the popular branch of the Legislature, has adopted a resolution of sympathy with the French Chamber of Deputies.

## THE WILSON BILL REVISED.

The Duties on Planed Lumber Restored—Other Changes.

WASHINGTON, Dec. 12.—The Wilson Tariff bill was formally submitted by the Democratic majority of the Ways and Means Committee to full meeting of that committee yesterday. This is the first statement that the Republican members of that committee have been permitted to know in their official capacity the contents of the bill. Since the statement of the provisions of the bill was given out by the Democratic majority for publication two weeks ago a number of changes have been made in the schedules.

It is provided that the bill shall take effect in June, 1894, not in March next as in the first draft. The duties on planed lumber have been restored, barley malt is increased from 20 to 25 per cent. ad valorem, and there are many changes in the wool and crockery schedules.

## BRITAIN'S NAVAL PROGRAM.

Seven New Battleships to be Built and Forty Millions Spent on the Navy.

LONDON, Dec. 13.—It is reported that the Cabinet has yielded to the demand of Earl Spencer, First Lord of the Admiralty in Mr. Gladstone's Government, for a new and fairly large naval program. The expenditure under the new proposals will amount to forty millions of dollars. At least six or seven new battleships of the first class will be included in the plan.

## Belgian Execution.

BRUSSELS, Dec. 12.—The Chamber of Deputies has by a unanimous vote adopted a resolution expressing sympathy with the French Chamber. Several speakers denounced the crime in the most severe terms. M. Jansen, a Radical, said he hoped that the universal execration poured out on the would-be assassin would be a lesson to those who expected to realize their theories by means of violence.

## Condolence of the Peers.

LONDON, Dec. 12.—The Earl of Kimberley, Lord President of the Council and Secretary of State for India, moved in the House of Lords Tuesday that that body join the House of Commons in expressing sympathy with the French Chamber of Deputies and with President Carnot. Lord Salisbury, the leader of the Opposition, seconded the motion, which was adopted.

# SIR RICHARD'S MESSAGE.

## HIS PLATFORM IN PROPORTIONATE REPRESENTATION.

Double Voting or the Grouping of Constituencies, He Thinks Would Result in the Return of Better Men to Parliament.

"There are two ideas as to what constitutes the functions and duties of a government," began Sir Richard. "One is the paternal or patriarchal idea, that a government is omnipotent and ought to interfere in everything—that people at best are but children and ought to be treated and dealt with as such. The other idea is that a government is after all only strictly delegated authority and that interference with liberty is only justified by something of absolute necessity to the general good. That conception of government comes nearest to the fundamental Liberal idea."

"It is in the duty of all true Liberals to advocate freedom of speech, of thought, of action, freedom of soil and freedom of trade."

"A government should take care to so regulate the division of profits that no man shall be allowed more than his fair share."

"There are certain things a government ought not to do. It should not grant privileges to one class of citizens which it refuses to others. It has no right to take more taxes from the people than is necessary to carry on the business of the country."

"People are falling into the error of supposing that it is enough to have a good form of government. There is no form of government the wit of man has yet devised that is not capable of being perverted, and in this same Canada of ours we have an exceedingly good example of the truth of the aphorism."

"Canada has a fairly good form of government, but, in spite of her many advantages, she is far from securing the freedom she deserves."

"Our government dictates to the people with whom they shall deal. The essence of slavery is that the slave is not allowed to enjoy the fruits of his own labor—he must divide with somebody else. That is exactly what, under the protective system, our government compels the people to do."

"Protection creates a privileged class, to maintain whom the rest of the community are taxed."

"If anything was ever introduced which made political corruption a necessity it was protection. Under the existing system a large corruption fund is deliberately provided by law. So long as this is done it is impossible to have representative institutions. The machine is not only a part of the government of Canada, but the government itself. It is within my own personal knowledge that on more than one occasion the tariff was dictated by the manufacturers verbatim et literatim to the Finance Minister, who thus became the mere speaking-trumpet and mouthpiece of the Red Parlour to carry into effect their decrees, and not the decrees of the members of Parliament."

"Now, I wish to point out some facts concerning the grossly fraudulent pretences on which the National Policy was brought into existence. You will remember, doubtless, how it was claimed that patriotic motives alone inspired the authors of that policy. But a gentleman in the innermost ring of the founders of the N.P., a bosom friend and counsellor of Sir John, who knows, if any man does, the reasons why the N.P. chirped the shell 14 years ago—Mr. D'Alton McCarthy, said the other day, 'We were out of power, and there is no doubt in the world that we adopted the National Policy because we wanted to get in.' If Mr. Mackenzie had adopted it, there would have been nothing left for us but free trade."

"I give Mr. McCarthy credit for what he said, but I doubt if he realized the true significance of that confession. Politicians, for the sake of getting office and for no other reason under heaven, deliberately turned around and made promises to the people of Canada, which they knew would never be fulfilled."

"I have always held that the offence for which the Conservatives were expelled from power in 1874 was vile indeed, but the means by which they got back in 1878 were a thousand times more vile."

"I say deliberately that they have trifled with the people's interests to such a degree as has very nearly driven us on destruction's brink. Not only have they driven one and a quarter million people away in 15 years

to the front. Such a system of proportionate representation is going to be the real safeguard to universal suffrage."

"People at long last have awakened to the evils which were brought upon them in 1878, when the Conservatives were so anxious to adopt the system in vogue in the United States. Now that the Americans are at last emancipating themselves from the fetters they placed around their necks, the people of Canada will also emancipate themselves from their slavery."

In moving a vote of thanks to Sir Richard, Mr. M. G. Cameron said: "No man is so much maligned and abused in Canada as Sir Richard Cartwright, and if there is any man Liberals should stick to it is he. We love him for the enemies he has made. He is no friend of any Tory living. Why should he be? It will not be long before he will occupy the position which it would have been better for the country had he never left."

Mr. Joseph Tait, M.L.A., in seconding the motion, said he admired Sir Richard most for his colossal nerve.

## PATRONIZING THE PATRONS.

Gibson of East Huron Endorses Their Platform

BRUSSELS, Dec. 12.—At the Reform convention held yesterday Thomas Gibson, M.L.A., was again nominated as the standard-bearer for the Legislature for East Huron.

With regard to the Patrons of Industry Mr. Gibson said that in 1873 he proposed a policy in the House much along the same line as that contained in the Patron platform in reference to the appointment of county officials, such as sheriffs, registrars, etc. He approved of having them elected by the people, their term of office to be five years. Municipal officials would come under the same head.

## West Huron Conservatives.

GODERICH, Ont., Dec. 12.—The Liberal-Conservative convention for the west riding of Huron convened yesterday in town hall for the purpose of nominating a candidate for the Ontario Legislature. Speeches were delivered by the most prominent members of the association, but the selection of a candidate was postponed till further notice.

## THE ARDLAMONT MYSTERY.

Monson Pleads Not Guilty—Scott, Unlocated, Declared an Outlaw.

EDINBURGH, Dec. 12.—In the High Court of Justice Tuesday Alfred John Monson was called upon to plead to the indictment charging him with causing the death, at Ardiamont on Aug. 10 last, of Lieut. Hambrough. The case is known as the "Ardiamont mystery" and has excited keen interest in all parts owing to the prominence of the prisoner and his alleged victim.

Monson pleaded not guilty. His alleged accomplice, Edward Sweeney, alias Davis, alias Scott, has not yet been found by the police, and in accordance with the rule that obtains in the Scotch courts he was pronounced to be an outlaw.

Monson's footman was the next witness called. He testified that on the day of the shooting Monson returned to the house and informed him that Lieut. Hambrough had shot himself and that his body had been left in the woods. Witness searched for the body, but was unable to find it until Monson took him to the spot. The body was lying on its back. Witness saw no gun. On the night before Lieut. Hambrough's death he heard about the boat of which young Hambrough had been an occupant sinking in the bay. He saw the boat. It had a hole in the bottom that had obviously been made with knife.

Further evidence was given by witness for the prosecution to prove that the hole in the boat had been cut with a knife. Monson has always since the boat incident averred that it was due to the capsizing of the craft.

## DEATH OF MR. W. H. HOWLAND.

Toronto's Ex-Mayor Dies From an Attack of Pneumonia.

TORONTO, Dec. 13.—Mr. W. H. Howland, Mayor of Toronto for the years 1886-7, died at the Arlington Hotel at 1 o'clock yesterday afternoon from pneumonia.

Mr. Howland was attacked with influenza last week. He neglected attendance and his numerous duties tempted him to expose himself when he should have remained quiet. The disease developed rapidly and pneumonia set in.

## QUEEN LIL'S RESTORATION ATTENDED WITH TROUBLE.

No Action Yet Taken. But the Provisional Government will resist to the utmost—Government House Being Fortified.

YOKOHAMA, Dec. 12.—The British steamer China, Capt. Ward, from San Francisco Nov. 21, via Honolulu, arrived here yesterday. Considerable anxiety was displayed to learn the latest news from Honolulu. The steamer reports that when she left the Hawaiian capital the Provisional Government was still in power. There was much excitement in the city and great anxiety prevailed regarding the future action of the United States. According to the advices brought by the China the Provisional Government declared that it would resist the restoration of Queen Liliuokalani.

## Fortifying Government House.

VANCOUVER, Dec. 12.—The Australian steamer Arawa has arrived. Queen Lil had not been restored when she left Honolulu.

The annexationists held a mass meeting on Nov. 25 and adopted resolutions appealing to Congress to aid the movement.

On the four days preceding the sailing of the Arawa the troops of the Provisional Government were busy fortifying and barricading the Government House. The work was being done with sandbags principally.

Probably 1000 people attended the mass meetings, which, on call, were stated to be for citizens favorable to annexation. The Royalists claim the meeting was packed by representatives of the Provisional Government, and that all the enthusiasm was of a pre-arranged order. E. M. Hatch, vice-president of the Provisional Government and president of the Annexation Club, presided and made the opening speech.

He appealed to Congress against the executive, and held that Secretary Gresham did not understand international law. He claimed that the Provisional Government had never submitted its right to exist to the United States and was therefore not bound by the policy of President Cleveland.

W. R. Castle, one of the annexation commissioners to Washington, made an argument to prove the authority of mass meetings. He quoted recent American opinion that the revolution of 1776 was the work of the minority. Hawaii, he said, was surely trending toward the goal of union with its mother country across the water. Can Secretary Gresham stop the onward progress of Hawaii, he shouted. Mr. Castle said President Cleveland and Mr. Gresham were trying to execute justice and do what is right, but he said the enemies of annexation had studded their ears with lies. The speaker claimed that the people of the United States were against the President's Hawaiian policy. He claimed that the President of the United States is nowhere authorized to begin war.

Mr. Castle attacked Commissioner Blount in a sneering way, charging him with twice inviting the supporters of the Queen to revolt against the Provisional Government. He asserted that the people of the country had established provisional government. Mr. Castle concluded by moving the following resolution, which was passed without dissent:

Resolved, That we have read with surprise and regret the recommendation of the Secretary of State of the United States to the President to restore the monarchy lately existing in Hawaii.

Resolved, That we condemn the assumption of the Secretary that the right of the Provisional Government to exist was terminated by his refusal to re-submit to the Senate the treaty of union pending between the two countries, and also his assumption that the Provisional Government at that very time submitted the question of its continued existence to the arbitration of the President or of any other power.

Resolved—That we support to the best of our ability the Provisional Government to resist any attack upon it which may be made contrary to the usage of nations.

The castle is barricaded or fortified, and 16 cannon are mounted in front of it. The officers of the Arawa are not disposed to speak at length of the situation. Captain Stewart said the town was peaceable enough, although there seemed to be great excitement.

President Dole stated on Nov. 29 that the Government had received two bona fide offers of armed assistance from the coast. One was for service here in defence of the

which was directly or indirectly used as a bribe to keep them in power.

"More, they have degraded and debased a large number of our people. McGreevy's revelations from his present residence in Ottawa afford proof of that fact. McGreevy sinned, but he was very severely punished, while his beneficiaries, the men who owe their seats in Parliament to the funds he subscribed, go unwhipped of justice. There are men who but for McGreevy would never have been in Parliament at all, much less hold seats in the Privy Council. These men escaped, while their tool and scapegoat goes to prison.

"Although there has doubtless been progress in some few favored localities, Canada has made no advance, materially speaking, within the past 15 years.

"A protective system is wholly inconsistent with a proper representative system. Our theory in Canada is that the opinion of the majority of the male adults should prevail. Although this system has its theoretical drawbacks, it would work fairly well if let alone. But the system is constantly being interfered with.

"What a farce it is when infamous gerrymanders are shamefully practised and as shamefully laughed at to talk about representative institutions!

"As an interested spectator—[laughter]—they have reduced us to about that—I tell you Ontario for the past 12 years has not been fairly represented. Had it been, according to the vote polled, the Conservative party would have been swept out of existence.

"I have heard it said often that the Liberal leaders were not sufficiently dexterous or energetic. I tell you it Sullivan or all the angels of heaven had been called in the result would have been the same. With loaded dice against us what chance did we have?

"Aliens were brought here to overpower the resident vote. In many counties 200 or 300 persons were brought from the other side of the line—men who had quitted Canada with no intention of ever coming back to swamp the honest resident vote. If only those who intended to reside in Canada had voted the Conservative party would have been swamped."

A Voice: Then they had the Montague pluggers.

"Yes, that is another branch of the subject," said Sir Richard. "Bribery exists in a highly organized state, and will flourish so long as protection provides corruption funds. Much has been said of the bye-elections—those by which the Conservative majority was raised from 4 to 40. This showed the extent of the bribery brigade. In a general election the forces must necessarily be divided, and consequently they are not very powerful. But in elections held on different days the brigade can be transported from place to place.

"Even if the protective system is rooted out there is another consideration. How in the future will we take such precautions as will prevent its recurrence? What I am about to say I say on my own responsibility alone. In my judgment we must amend the system of representation in order to remove the recurrence of gerrymander and remove the temptation to bribery. While the latter may never be completely banished it may be enormously lessened.

"Minority representation is a misnomer and misleads people, but I believe better results could be obtained by the introduction of something like proportionate representation.

"Bad as the House of Commons may be—and if I was put on my oath to express my candid opinion of the present House of Commons I would speak very strongly—still it has a perfect system of proportionate representation. And what is so easily done in a body like the House of Commons could be done in a larger sphere such as an election. I do not intend to draft a bill to-night, but a plan of double elections, grouping constituencies or something of that nature could be adopted. It is in the interests of Canada and the interests of humanity that this Dominion should be given a fair and just representation.

"Although the Liberals control within a fraction of the whole vote of Ontario they have only 32 out of the 92 members. It is a gross and crying injustice that this should be brought about by such artificial disturbances as gerrymanders.

"Proportionate representation may, it is claimed, give weight to promoters of fads and fancies and may make party government impossible, some claim, but I tell you, it is a message, I bring you to night, and whatever the objections may be, the principle ought to command itself to every liberal and every honest man.

"I believe the result of proportionate representation would be to bring better men

Commerce at Capetown has written to the Montreal Board of Trade stating that it proposes to consider the question of establishing a central court of appeal for the empire in which all the principal colonies will be represented, and asking the Montreal Board for a copy of the laws establishing the Supreme Court of Canada. In reply to a request from the Board of Trade, Solicitor-General Curran has forwarded to the secretary of the board a copy of the Supreme Court Act for transmission to the Chamber of Commerce.

The case of Leprohon versus the Queen was argued in the Exchequer Court this morning and judgment reserved. Judge Burbridge intimating that judgment would probably be given early in January. This suit is for damages sustained by the plaintiff at the Three Rivers postoffice last January, and was instituted under sub-section 6 of section 16, Exchequer Court Act.

Mr. George Lawrence Foster, Accountant of Penitentiaries branch of the Department of Justice, left to-day for St. Vincent de Paul Penitentiary to inspect the books of that institution.

Mr. Joseph Pope, assistant clerk of the Privy Council, to-night lectured in St. James' Hall on "Anglican Claims," which was a reply to an address delivered some time ago by Rev. Mr. Muckleston on "Catholic Methods of Controversy."

Hon. Mr. Foster was to-day shown the despatch from Halifax appearing in this morning's Gazette, in which Sir John Thompson is reported as saying that an agent is in Ottawa to conclude arrangements for a fast Atlantic service. Mr. Foster said that negotiations have been in progress for some time past and an agent has been expected to arrive here from England any time during the last three weeks to complete them, but so far as he was aware he had not arrived yet.

The reports of Prof. McEachran and Prof. Adam of McGill University, who have for some weeks past been engaged in analyzing portions of the lungs of the two oxen landed from the steamer Lake Winnipeg and Hurona, said by British veterinary surgeons to have been suffering from pleuro-pneumonia, have been received by the Department of Agriculture.

The reports are made separately from separate examinations, but they both arrive at the same conclusion, which is that the British experts were wrong in their diagnosis and that the animals in question were not suffering from contagious pleuro-pneumonia, but from a non-infectious form of pleuro, which has existed in portions of the United States since 1890, when cases of it were examined by Dr. McEachran. Both professors agree that the cattle landed from the Lake Winnipeg and Hurona did not die from contagious pleuro-pneumonia.

### THANKED POWDERLY.

The K. of L. Thank the Ex-G.M.W. Fox His Services to the Order.

PHILADELPHIA, Nov. 29.—The General Assembly of the Knights of Labor adjourned yesterday to meet next year at New Orleans. A resolution was adopted before adjournment thanking Ex-General Master Workman Powderly for his services in the 15 years he has been at the head of the order and complimenting him upon his fair decisions, etc. It also expressed the hope that his friendly relations with the Knights would not be severed and that much prosperity would attend his future life.

### Surrenders \$125,000 a Year.

LONDON, Dec. 12.—The Duke of Saxe-Coburg-Gotha has resolved to surrender the allowance of £25,000 a year which he receives as Duke of Edinburgh from the British Parliament. It will be announced to Parliament shortly. The Duke of Cumberland retained his allowance when he succeeded to the Hanover throne.

### GLADSTONE'S VALET FOUND DEAD.

His Body Found Floating in the Thames—Suicide suspected.

LONDON, Dec. 12.—The body of Zader Outram, Mr. Gladstone's valet, who mysteriously disappeared at the beginning of December, was found floating in the Thames, near London bridge yesterday. It was taken to the Tower Hill Mortuary, where an inquest will be held. It is surmised that Outram committed suicide.

He left for Mr. Gladstone's Downing-street residence on the night of Nov. 30, ostensibly to meet the young woman to whom he was engaged to be married. He did not meet her and was not afterwards seen by any of his acquaintances. It is conjectured that on that night or soon after he threw himself into the river.

fact that it has been tendered us shows that the feeling is in the United States."

WAS IN THE WAY, SO HE SHOT HIM.

He Then Eloped With the Man's Wife—Sent to the Penitentiary For 7 Years.

TORONTO, Dec. 13.—Sheriff's Officer Long of Sault Ste. Marie passed through the city yesterday en route to Kingston with Louis Lacombe, sentenced to seven years' imprisonment for attempted murder at Cook's Mills.

Lacombe, who was in the employ of Joseph Ross, was intimate with the latter's wife. He lay in wait for Ross on Nov. 26 and lodged a bullet in his side. The report that Ross had died from his injuries is incorrect, but the doctor states that the result will be ultimately fatal.

After the shooting Lacombe and Ross' wife eloped, but returned in a few days. It was through the elopement the authorities got the clue as to who did the shooting, as Ross stated that it was an unknown man, and refused to testify. In fact Lacombe was actually arrested concealed under the bed in which the wounded man lay.

Prisoner gave evidence in his own behalf and admitted the shooting. He said: "I did not want to shoot Ross, but when I fired he was in the way."

### DRANK CARBOLIC ACID.

A Child Took the Poison and Lived Only an Hour.

GUELPH, Ont., Dec. 12.—A little 3-year-old daughter of Mr. and Mrs. Frank McGee, Galt-street, while her mother was out doors getting a pail of water, drank a quantity of carbolic acid which was on a shelf. Mrs. McGee heard the child scream and ran into the house. Seeing there was something wrong medical assistance was quickly sent for, but nothing could be done to save the child's life. She died inside of an hour.

### LUCKEY'S DEATH WARRANT.

Signed By the Governor-General and Sent to Brockville.

OTTAWA, Dec. 12.—An important document was last evening transmitted to Sheriff Smart at Brockville, namely, a copy of the order-in-council declining to reprieve Charles Luckey. His Excellency the Governor-General signed the order in the afternoon and a telegram was sent to Brockville at once, the order following.

### Deaf for a Year

Caused by

### Catarrh In the Head

Catarrh is a CONSTITUTIONAL disease, and requires a CONSTITUTIONAL REMEDY like Hood's Sarsaparilla to cure it. Read: "Three years ago, as a result of catarrh, I entirely lost my hearing and was deaf for more than a year. I tried various things to cure it, and had several physicians attempt it, but no improvement was apparent—*except a gradual disappearance of sound*. I was intending putting myself under the care of a specialist when some one suggested that possibly Hood's Sarsaparilla would do me some good. I began taking it without the expectation of any lasting help. To my surprise and great joy I found when I had taken three bottles that my hearing was returning, and kept on till I had taken three more. It is now over a year and I can hear perfectly well. I am troubled but very little with the catarrh. I consider this a remarkable case, and cordially recommend

Hood's Sarsaparilla

#### Fell Diphtheria.

One of the saddest cases of desolation caused in a household by the dread disease diphtheria ever recorded occurred in the city of Toronto. Mrs. Walter Darling, widow of the late Mr. Walter Darling of the Dominion Bank, who died about a year ago, her little boy Harry and her sister, Miss Cassells, have all died from the disease in its most virulent form within the past week. The cause of the disease is unknown. Four children between the ages of 8 and 12 years are left fatherless and motherless.—Toronto Globe.

#### The Montreal Christmas Star.

We have just had an opportunity to inspect the Christmas Number of the Montreal Star which is now being issued. It is really a superb publication, and the excitement it is creating throughout Canada is quite justified. The Christmas Star needs to be seen, for anything we can say will not do it justice. The art supplements that go with the Christmas Star are perfect gems, and the opinion is universal among art critics that no foreign publication and no previous Canadian Christmas pictorial can, for a moment, compare with this year's Christmas Star. Of all the seasonable things, of all the sweet and acceptable presents, that can be given or sent to friends, certainly the Christmas Star takes the palm, and it is only fifty cents. This is verily a marvellous age. The publishers are Graham & Co., Montreal, who will send it direct where it cannot be procured through a newsdealer.

### Resolutions of Condolence.

The following resolutions of condolence to Mr. T. Ham, and Mrs. John D. Ham were passed by the county council on Friday last:

The members of the council learn with regret of the death of the wife of one of our members in the person of Mrs. T. Ham of South Fredericksburgh, and desire to express our heartfelt sympathy with the bereaved husband and family and that a copy of this resolution be forwarded to Mr. Ham by the clerk.

The members of this council desire to record their deep regret at the sudden decease of John D. Ham Esq. and to extend to his widow and sorrowing relations their heartfelt sympathy. Mr. Ham was on two occasions warden of the county. He was a member of the council of the united counties of Lennox & Addington and at the time of the separation of the counties rendered valuable services to this county. He was eminently well versed in municipal matters and was always ready and willing to impart information to succeeding councils. He was respected by the community as a man of stirring worth and probity and his removal has cast a gloom over the council.

### All's Well that Ends Well.

Last Wednesday afternoon a couple of young people drove up to St. John's Rectory, Bath, bearing with them the kind permission of the Lieut. Governor to get married, but they were unfortunate in finding the Rev. Rural Dean Baker away from home. The Bridegroom suggested that they should seek a minister of some other persuasion but the bride being a staunch church woman would not consent to be married by any but an Anglican Priest, so a telegram was sent to Rev. Mr. Dibb of Odessa. The operator at Odessa was not in his office at the time so the Kingston operator notified Bath that he could not get the message through to Odessa. This news being communicated to the waiting pair, they thought it useless to wait any longer and left the village. No sooner had they gone than Kingston notified Bath that the message had been delivered at Odessa as the operator had just returned. This was immediately followed by a message from Odessa to say that Mr. Dibb was just starting. A messenger was then dispatched in search of the wandering lovers and they returned once more to Bath where they were duly united together, and God's blessing pronounced upon their union. By this time it was about 9 o'clock at night and the happy pair wended their weary way home having driven altogether about 30 miles and having spent nearly the whole day in search of the benison of Holy church. All things come to him who knows how to wait.

Accounts due The Napane Agricultural Works must be paid by 16th December. Parties interested will please remember this date and remit accordingly.

#### The Bazar Concert.

The concert on Wednesday evening in connection with the two days bazar, under the auspices of the ladies guild of S. Mary Magdalene's church, was a highly successful and enjoyable one. The town hall was tastefully decorated and the booth in the centre of the hall seemed to be doing a good trade. A song by Miss Daly, rendered in her usual captivating manner, was well received. The ladies quartette Mrs. Burritt, Mrs. Herring, Miss Douglass and Miss Tilley, captured the crowd with their brilliant rendition of Annie Laurie. But the main feature of the evening, the Mother Goose Lancers, took the audience by storm. The costumes were elegant and costly and drill and singing gone through with great precision and neatness. The music was supplied by Miss Aylsworth, pianist, and Mr. Herb Wright, violinist.

#### County Court.

The county court and general sessions of the peace for the County of Lennox and Addington commenced on Tuesday last at the court house, before His Honor Judge Wilkison. The following members of the bar were present: A. L. Morden, Q.C., H. M. Deroche, Q.C., J. H. Madden and W. S. Herrington.

**MAIR & BROS. vs. MANCUR & BABCOCK.**—An action brought by the plaintiffs against the defendants, who reside at Odessa, to recover the amount of boot money upon an exchange of boiler and engine. The evidence is all in and the argument of counsel adjourned to the judges chambers.

Deroche & Madden for plaintiff, Herrington & Warner for defendant.

**QUEEN vs. ROBERT BRYDEN** and others.—The grand jury brought in no bill.

**QUEEN vs. STANLEY CLAPP.**—This case arose out of Wesley Huff serving the defendant with a summons for shooting ducks out of the proper time and Huff claimed that Clapp assaulted him while in the discharge of his duty. No verdict was arrived at, as the jury disagreed.

A. L. Morden, Q.C., for the crown, and H. M. Deroche, Q.C., for defendant.

#### PRESENTMENT OF GRAND JURY.

To His Honor Judge Wilkison:  
We the Grand Jury of our Sovereign Lady the Queen, in the county of Lennox & Addington beg leave to submit the following:

We visited the gaol and found it clean and tidy and the turnkey anxious to show us every department. We find eight male inmates, six of them vagrants, one of the six for drunkenness, one waiting for trial and one to be removed.

We would recommend new closets on the dry earth system and also recommend better ventilation in jail.

We hereby congratulate you on your apparent good health and the lightness of your duties here which is a proof that the morality of our county is improving and we hope you may live long to fill the honorable position you now occupy and which you have so ably occupied for many years past.

We have the honor to be your obedient servants,

Ira Raymond, Foreman,

#### "At Home."

An at home was held in the new parsonage, Selby, on Tuesday evening last. Rev. Stratton and family are now cosy settled and gave a hearty welcome to the many friends who called to see them. Sandwiches and coffee, good and abundant, were served. After prayer, short addresses were delivered by Messrs Haccard, Ira Hudgins, D. Milson, John Aylsworth, J. S. Hullett, and Rev. J. S. McMullen. Singing by the company, solo's by Mrs. McMullen and recitations by Miss L. Hudgins, and Miss Ida Stratton made up a most excellent programme. At a seasonable hour the company dispersed much pleased with the evening's enjoyment, and delighted with the new premises and loud in their expression of satisfaction to the foreman, Mr. L. Wallace, and the pastor, Rev. J. B. Stratton, for having done so well.

The Prince Edward Island local elections on Wednesday resulted in a sweeping victory for the Liberals, who will have a majority of ten in a Legislature of thirty members. The result of the Provincial plebiscite on prohibition is not known as yet but will be made public on Friday.

From now until Xmas the whole of my fine stock of watches, clocks, silverware, jewellery, spectacles, &c., will be offered at bargain prices. Having a very heavy stock and wishing to reduce it by the Christmas trade, I thought the best way was to offer everything at prices that would be an inducement to buy. My stock is new and clean and my prices before the reduction compared favorably with any in town, but now they are away below. Call and buy your presents at Chinneck's Jewellery store and save money.

—Skates, skates, skates.—Columbus, New Star, Genuine Acme, Club, plain and nickel plated skates of every description. Largest stock, newest patterns and cheap at BOYLE & SON'S.

OUR LIBERATION. ACCORDING to a busy writer in The Century, Friedrichsburg is positively bathed in an atmosphere of Christian resignation. "Fortunately for me," said the fallen Minister to his American visitor, "when I was very young I learned to repeat the Lord's Prayer, and truly to mean it when I said, 'Thy will be done.' And this I still say, and so nothing ever really troubles me." And no doubt it is the case that men often make the most noise over the least seal of their trials and troubles.
